Our Story

Hello! We are Joe and Erica. Erica is 31 years old and Joe is 33. We have been together for 10 years and married for 2. We both grew up in small towns in Michigan and moved to bigger cities for college. Now we live in Erica's hometown nestled in between Lansing & Flint. We purchased our first house and have been settling down here with our beloved cat; Bella. We are so grateful to be surrounded by a loving community of family and friends. We are first time parents and parenting has always meant so much to us. We believe that it can be the opportunity of a lifetime to raise another human being. We know this is the right time and place to grow our family.

What Brought Us to Adoption

This decision was made from finding ourselves in a place where we felt ready to be parents. We both have always felt that adoption would be a part of our story one day, we just never knew when and how. After countless conversations and further research, we now know that this is the right time to start our adoption journey.

Our Hopes, Open Adoption & Relationship with Birth Family

We recognize that our decision to adopt is not based on what we can gain but more about what we can give to our child as we become their parents. We will strive to pass on our values of love, open-mindedness and compassion for others. Our hope is that we can experience the impactful moments of adoption with the birth family of our child and build a lifelong relationship that makes us feel proud of what we have accomplished together.

These individuals have met all requirements of the State of Michigan and Catholic Social Services of Washtenaw County to become adoptive parents, may fit your situation and are waiting to welcome a child into their home. If you would like more information about this family, please contact:
